

Eagle Brochure Stand

Long-lasting and user-friendly

Eagle has been engineered to be the perfect compliment to any marketing display. Its timeless design and quick set up means that it can be deployed any time and anywhere. Its small foot-print and low centre of gravity allows it to be placed in the most crowded areas but for maximum impact the system is best used in tandem with other products in the Maxibit range. For the campaign trail, use Eagle with Maxibit Zap for a subtle yet powerful shopping mall display, while at the trade fair, several Eagle used side by side can add elegance to your booth.

Specifications:
